

Are there any dupli-
-cate of *Sphagnum*
Lindbergii in

the Sullivan
Herb. I know Peck
sent him quite
a lot of it. This

is one of the most im-
-portant mosses in
my Herbarium, & I

should like enough of it
to finish out the last 12 cells just
put up. about 2 stems would
answer ^{as} they could be cut up in
short pieces C.F.
